

# FALL IN LOVE

with Flow Again

### The ZE5 Cell Analyzer Your Perfect Match

Designed by users for users, the ZE5 Cell Analyzer is everything you told us you wanted in a cell analyzer. Its powerful, with five lasers and 30 parameter capabilities, and versatile, with an integrated universal plate holder able to accommodate virtually any tube, rack, or plate. Best of all, the ZE5-EYE tracks settings and checks for errors, essentially anticipating problems before they happen. Meet your perfect match and fall in love with flow again.
