

CELLULAR IMAGING

- **ImageXpress Micro Confocal**

- Only confocal with multiple spinning disc option

IXM-Confocal

- **ImageXpress Micro 4**

- Upgradeable to confocal
- Fits your budget now but doesn't limit your capability and growth later

IXM-4

- **ImageXpress[®] Nano**

- Cost-effective automated microscopy for common biological assays

IX - Nano

- **ImageXpress[®] Pico**

- Integrated cell imaging and analysis in one affordable system

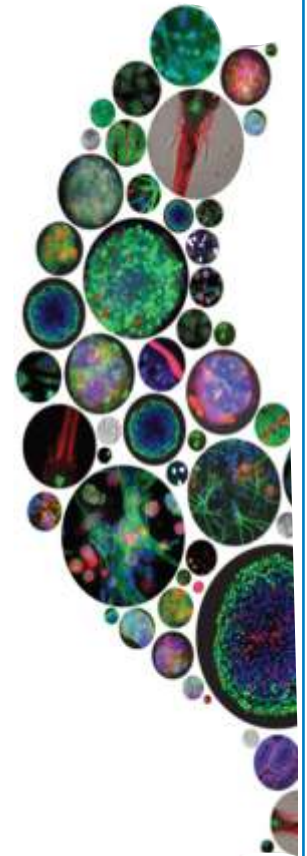

IX - Pico

- **MiniMax Imaging Cytometer**

- Multi-mode plate reader with Imaging

Spectramax i3x
