Regional Centre for Biotechnology

PhD in Biostatistics and PhD in Bioinformatics

Regional Centre for Biotechnology is an Institution of National Importance established by the Department of Biotechnology, Government of India, under auspices of UNESCO with the primary focus of providing world-class education and training, and to conduct innovative research at the interface of multiple disciplines to create high quality human resource in the area of biotechnology.

Online applications are invited for admission to PhD in Biostatistics and PhD in Bioinformatics from students holding (or expected to complete this academic year) a first-class (60% marks or more) Master's degree in Statistics or Mathematics (for Biostatistics programme) / Master's degree in Computer Science, Bioinformatics, Computational Biology, Biotechnology with specialization in Bioinformatics (for Bioinformatics programme). Prospective students are required to appear for a nationally-open written examination at RCB followed by interview of shortlisted candidates.

Stipend

Selected students shall receive a consolidated stipend of Rs. 45000/- per month for the first 2 years of the program and Rs. 50000/- for the next three years.

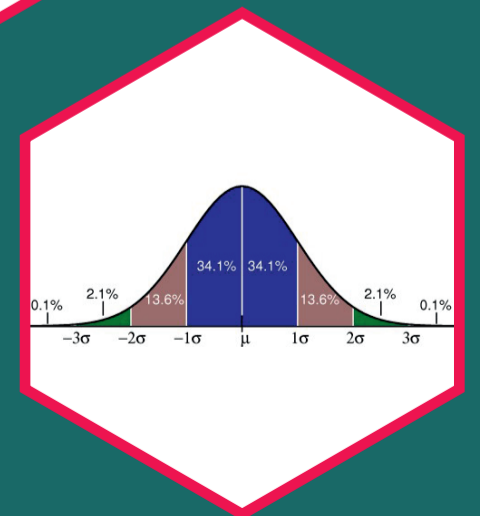

Application Procedure

Interested students may apply online by paying the prescribed application fee. The last date of application is 15 June 2020.
