The 42nd National Seminar on Crystallography (NSC-42) will be organized jointly by Indian Crystallographic Association (ICA) and INSA National Committee for IUCr. NSC-42 will be held in New Delhi during November 21 - 23, 2013. This will be an excellent opportunity for Crystallographers from all over the country to meet and deliberate on various aspects of X-ray Crystallographic research. We welcome all Crystallographers and Scientists related to Crystallography and crystal growth to share their observations, scientific views and new achievements of Crystallography and crystal growth on all its facets. The meeting will also provide opportunities to deliberate new infrastructures in home and major national facilities in the country. The Programme Committee (PC) will be organizing a rich scientific programme of keynote lectures, invited talks and oral presentations. The PC is planning to experiment to have all presentations as Oral Presentations. An exciting Workshop is also being planned on "The Applications of X-ray Crystallography to Drug Discovery".

IMPORTANT DATES

Registration Begins :

1st August, 2013

Last Date for Abstract Submission :

15th September, 2013

ABSTRACTS

Participants are requested to submit a one – page (A4-size) abstract of their research presentation.
